- b. Candidates who opt for places allocated to Roma ethnics by the line ministry will submit upon application a recommendation issued by a legal organisation of the Roma (signed), attesting their belonging to this ethnic group. The ranking of Roma ethnic applicants is determined after each session of admission, at university level, according to the applications submitted;

**Art. 10. (1)** Bachelor's degree admission is conducted for the degree programmes established by the GD on the adoption of the Classification of subject areas and specialisations/degree programmes and the organisation of higher education institutions for the following academic year.

(2) Master's admission is available for the degree programmes established by the GD on accredited master's degree subject areas and programmes and the maximum number of students that can be enrolled in the following academic year.

**Art. 11. (1)** Admission to undergraduate higher education is open to high school graduates with a baccalaureate diploma or equivalent diploma, as well as to graduates of studies abroad acknowledged as such by the authorised directorates, provided they are Romanian citizens. (1) Citizens of the member states of the European Union, of the states within the European Economic Area, of the Swiss Confederation, as well as British citizens and their family members (spouse or dependent children) as beneficiaries of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community 2019/C 384 I/01 are eligible to apply for admission under the same conditions as those provided for by the regulations for Romanian citizens, including the tuition fees.

Upon graduation from a bachelor's degree programme and master's degree programme, a student must complete at least 300 transferable credits.

(3) Admission of citizens from third countries of the European Union shall comply with the special methodology established by the Ministry of Education for specific places allocated by the faculty. Faculties and the Centre for International Cooperation will provide information and administrative assistance to foreign nationals seeking admission.

**Art. 12. (1)** A candidate may apply simultaneously for admission to more than a single degree programme/specialisation at UBB or other higher education institutions, as established by their Senates. The candidate may be enrolled in no more than two degree programmes simultaneously, regardless of the course of study and the educational institution that provides them.

(2) A student may receive state funding for only one undergraduate and one master's programme, regardless of the category of the place they are applying for. They must choose the degree programme/specialisation to which they would like to receive state funding by submitting the original graduation diploma/certificate of the previous degree programme. The deadline for submitting the original documents is set by each faculty, but no later than the first day of the academic year in which they are enrolled. The Admission Committee may extend the deadline for submitting the baccalaureate diploma in original if there are delays in issuing the baccalaureate diplomas in high schools.

**Art. 13. (1)** Students or graduates of higher education institutions, enrolled during previous years on state funded places, who decide to opt for a second specialisation and are admitted to this new specialisation can be subsidised from the state budget only during the normal period of study (deducting from the duration of study of the new specialisation the years of study subsidised from the state budget for the initial specialisation). If the first specialisation is on tuition, the second specialisation can receive funding from the state budget, following a successful application for a state funded place.

**(2)** State funding of a regular degree programme is available for each year of study only once. Any other cases, except for social cases, imply pursuing the year of study on a tuition fee scheme. If a student withdraws from studies after the start of the academic year from a state funded place, then the student is considered to have received one year's state subsidy towards the standard duration of study.

**(3)** Upon application, candidates fill in a standard form confirming by signature whether or not they have already completed a state funded bachelor's/master's degree programme, irrespective of whether or not they have completed the programme. Under the criminal law (Penal Code art. 320-327), any material falsehood in official documents, false statements, fraud, etc. likely to have legal effects are punishable by imprisonment sentence of 3 months to 3 years. ## **C. ADMISSION EXAMINATION**

### **I. GENERAL ADMISSION CRITERIA AND GUIDELINES**

**Art. 16. (1)** The UBB admission ranking is done strictly in descending order of the average scores (or of the number of points) obtained by the candidates, according to the selection and tie-breaking criteria, the candidate's choice for a particular field, line of study or form of education within the number of places open for the selection competition. If there are several candidates with equal average scores at the bottom, the tie-breaking criteria established by the Faculty Council will be applied. The tie-breaking criteria for the candidates must be conceived so that they ensure full transparency. Faculties will provide at least two such tie-breaking criteria.

**(2)** The average scores obtained by candidates (general score) are used to determine the ranking order only for the faculty, specialisation and line of study indicated by the candidate in the application form. These average scores are only valid for one admission session.

**Art. 17. (1)** The minimum pass grade for each examination and the minimum admission score is 5 (five) at undergraduate level, and the minimum pass grade for each examination and the minimum admission score is 6 (six) at master's level. In the development of specific selection criteria, faculties may impose a higher minimum average below which candidates cannot be accepted. If the ranking was based on points, the points must be converted to grades, with the conversion system published alongside the final lists. For high school grades acquired in other countries, provided graduation certificates have been recognised as legally comparable, the average grades or points will be converted into grades according to the grading system used in Romania, as stipulated by the line ministry. In order to foster competitiveness and improve the performance of prospective students, admission exams may be conducted to assess the knowledge, skills or abilities of the applicants.

**(2)** The final average grade (overall score) of each candidate is calculated as the weighted average, with two decimals (without rounding off) of the final scores obtained in all examinations, according to the selection criteria established for each degree programme/specialisation.

**Art. 18.** Admission to distance and part-time education is conducted under the same selection criteria as admission to full-time education, for the places allocated to this end on stand-alone lists. Distance and part-time education is organised only on tuition.

**Art. 19.** The following cannot be used as criteria for selecting candidates: age, gender, ethnicity, first language (mother tongue), religion, race, political affiliation, association with legally constituted organisations (or whose activity does not infringe Romanian law) or chronic disease without risk to society.

**Art. 20. (1)** Candidates who during high school studies were awarded prizes in school Olympiads and/or other national and international competitions may benefit from special admission facilities or conditions according to faculties regulations.

**(2)** Candidates who during high school studies were granted prizes (1st, 2nd, 3rd prize, honourable mention) at school Olympiads and international competitions acknowledged by the line ministry, or the first prize in national school Olympiads subsidised by the Ministry of Education are eligible to apply for an undergraduate degree on state funded places, without sitting the admission examination. Faculties may align the academic subjects for which prizes have been awarded with the fields of study for which admission is held.

**Art. 21. (1)** For undergraduate and master's degree studies, the admission exam is conducted in the language of the degree programme. For programmes with teaching in several languages, where candidates choose several options, they will sit for the admission exam in the language of teaching according to their first option. For the other language options a language certificate, according to Addendum 1, or an examination in the language of the respective study programme will be required.

**(2)** For master's level programmes submitting a certificate of language proficiency in a foreign language, in accordance with Addendum 1, is mandatory.

**(3)** For degree programmes where the language of instruction is Romanian, upon the written request of the candidate, the admission examination may be held in the candidate's mother tongue.

**(4)** For admission to degree programmes conducted in Romanian, candidates who do not submit at the time of application documents issued by Romanian or foreign educational institutions teaching in Romanian, must take the admission exam in Romanian. As an exception, applicants who have studied in Romania in an international language or in a language of national minorities, can certify their language skills in Romanian by submitting a baccalaureate diploma issued by authorised/accredited educational establishments in Romania.

## **II. APPLICATIONS AND ADMISSION EXAM**

**Art. 22.** The admission examination to higher education at UBB is organised in two sessions, during the terms set by the Administrative Council. The first session is conducted in July. A second session is organised in September in order to fill the available places. The schedule includes the application, examination dates, posting of results and the confirmation of place. The application periods will end at least 24 hours before the start of the first examination test in these specialisations/ degree programmes. Applications for the admission exam are submitted online, with the identity card/passport and the other documents specified in the regulation of each faculty. No applications or exams will be conducted outside the date legally established by each faculty. The applicant is fully responsible for correctly submitting all documents required.

**Art. 23.** If following the second admission all state funded places in a specialisation are not filled, the chair of the UBB admission committee will decide on the redistribution of places to other majors in the faculty or to other faculties within the lines of study depending on demand and competition. Students previously admitted on tuition can be moved on these places.

**Art. 24. (1)** Upon application for the admission examination the universities charge the candidates an admission fee, according to law, which covers the competition process (regardless of the form of examination) and the activities required for reviewing appeals submitted within legal term. The method of collecting fees will be explicitly stated in the regulations of each faculty (single tuition fee, fee for each field, fee for each degree programme, etc.). The admission fee includes the application fee and the processing fee.

**(2)** UBB has waived the application fee for UBB employees and their children, employees of the Central University Library, as well as the children of active or retired teaching and auxiliary teaching staff of higher and pre-university education institutions. A non-refundable processing fee is levied for the organisational and communication components, and it is not susceptible to exclusions or exceptions. Applicants orphaned by one or both parents, single-parent children, young people up to the age of 26 from foster care and people at risk of being unable to support themselves on a daily basis on account of illness,

disability or poverty are exempt from the admission fee (comprising the application fee and the processing fee).

Exemption from these fees is only granted upon submission of the supporting documents by the applicant upon application, as set out in Addendum 2.

**Art. 25.** When applying, candidates will fill in the online application form with all the required information under their own signature. Applicants will be informed that if the specialisation does not have enough candidates in order to form a study formation, they can select a specialisation in the same field at the same faculty, but this option must be filled in the application form provided by the faculty. After the application period ends the order of options as well as other information in the application list cannot be further changed.

**Art. 26.** Candidates will be informed of all admission or specialisation/ degree programme details, as faculties will provide competent staff for each line of study in order to communicate with students in the languages in which UBB provides education for students at the respective faculties. Those in charge of the lines of study are responsible for securing these arrangements.

The grades for the admission examinations range from 1 to 10. Grading rubrics are posted during the admission exam. Faculties may require applicants to pass physical strength tests, practical tests, and/or a specific medical examination. These tests may be used to rule out candidates.

**Art. 30. (1)** After confirmation and approval by the faculty admission committee, admission tests and application results are made public by timely online posting in a dedicated area within the faculty, noting the date and time of publication. The candidates admitted on state funding and on tuition will be listed in decreasing order of the average score (and other supplementary criteria), as well as the applicants rejected (for all specialisations). The lists will be encoded. The deadline and location for submitting appeals must be indicated.

**(2)** Faculties will submit the final lists with the successful applicants to the University Rector's Office and after that no other changes are possible. These lists will also be signed by the Chair of the University Admissions Committee.

**Art. 31.** Appeals will be submitted within 24 hours after the posting of results, and will be settled by the appeals review committee of the faculty. **Art. 32.** Appeals resolutions are publicly posted by the Appeals Review Committee of the faculty. **Art. 33.** Successful applicants are enrolled in the first year and sign a learning agreement with the Rector. Candidates admitted on tuition must pay the first instalment of the tuition fee. If the student submits to the faculty secretariat a registered request to withdraw from studies before the start of the academic year, the tuition fee paid will be fully refunded. Should the candidate be moved to a state-funded place, the tuition amount paid upon confirmation of place on tuition will be refunded.

**Art. 34.** If a candidate admitted on a state-funded place renounces their student status obtained through competition, or fails to confirm the place by the established deadline, the place thus vacated is reallocated in the following order:

- a. to one of the candidates who obtained the overall average equal to that of the last candidate admitted, by applying the tiebreaker criteria established by the faculty.
- b. to the first of the candidates below the overall average score of the candidates admitted on state funded places.
- c. by redistribution within the line of study, faculty, and university, as determined by the faculty regulation, respectively university regulation, and with the approval of the chair of the UBB admissions committee.
